FoodByQR QuickBill

**Tap-to-add billing**

Correct bills in seconds. One tap adds an item; tap again to increase quantity.

**Thermal receipts**

Crisp 80mm / 58mm printing with your logo, GST and footer note.

**Works offline**

Billing continues with no internet; bills sync automatically when back online.

**Sales & reports**

Daily and monthly sales, bill counts and best-sellers on your dashboard.

WHAT YOU GET

Powerful features, made simple

Everything a busy counter needs — and nothing it doesn't.

Lightning-fast billing

A POS grid with categories and search. Tap to add, adjust quantity in the cart, then Save & print.

Thermal & KOT printing

Print customer receipts and separate kitchen order tickets (KOT) on 80mm / 58mm rolls.

One-rate GST

Set a single GST rate — every bill is calculated correctly, with GST-ready receipts.

Offline-first & auto-sync

Keep billing when the connection drops. Bills queue on the device and sync with no duplicates.

Staff roles & security

Owner, admin and cashier permissions, enforced on the server. Encrypted GSTIN, hashed passwords.

Reports & Leads CRM

Track daily/monthly sales and best-sellers, plus a built-in CRM to manage sales leads.

WHY QUICKBILL

A clear upgrade over the rest

What matters	Other systems	QuickBill
Setup time	Long onboarding, per-item tax	Live in minutes, one GST rate
Hardware	Locked to terminals	Any phone, tablet or PC
Internet outage	Billing stops	Keeps billing offline
Ease of use	Cluttered, needs training	Tap-first, learn in minutes
Pricing	Hidden add-ons	Flat monthly / yearly

Save time, reduce errors, grow your business

Faster billing at peak hours, fewer manual mistakes, happier guests, and the numbers you need to make confident decisions — all from one simple app your staff learn on day one.
